The Greyhounds of 1946 looked forward to another season of great football for Handley. This would be a year in which many new names and faces would appear in ranks of football "greats" at old HHS. Though the team was somewhat inexperienced and was rated low in the district standings, the team was determined to let the world know that when they went on the field the old Greyhound spirit would be there. This spirit of hard fighting, fair play, and good sportsmanship was ever prevalent at all our games last year.

The Greyhounds started slowly, losing the first game to an inferior team at Cleburne, but when the first district game was played, Coach Harris's boys led the field with a score of 18 to 13 over Birdville. We then played two non-district games, defeating Carrollton and losing to Brady. The game following these was with Masonic Home, previously picked as a favorite over the Greyhounds. A forceful and determined team, however, faced the Masons playing to a 0-0 tie. The district teams of Lake Worth, Grapevine, and Keller fell before the mighty Greyhound team as the Greyhounds worked toward the annual game with Diamond Hill. In that game, however, the Greyhounds, despite their spirited playing, lost to the Eagles, who slipped by one touchdown in the third quarter and two in the fourth to end our football season. This left Handley tied with the Masons for second place honors in our district.

The Greyhounds finished a great season with the support of all Handley behind them, and with such support shall come many more great Greyhound teams.

This is how the Greyhounds looked when they took the field.

Co-Captains Rollins and McLeod.

★★ SPRING SPORT EVENTS ★★

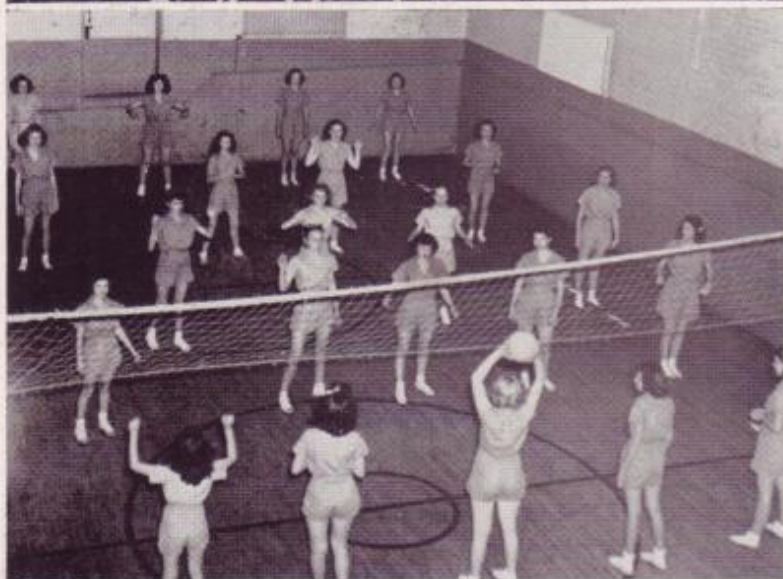

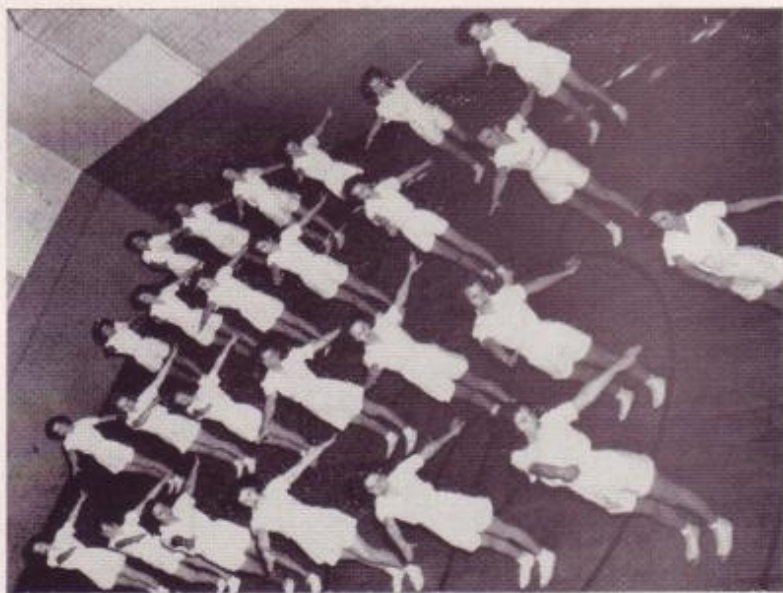

A great deal of enthusiasm was shown by the boys who participated in the track and tennis events this spring. The contestants practiced diligently, and some of these contestants represented our school very ably in tennis, track, and field events. When the track boys participated in the Keller Relays, they won sixteen points. This team also placed fourth in the II-A district meet held at Farrington Field. At this same time both the girls' and the boys' tennis teams won the doubles in the district tennis meet, and the right to represent this district in the regional meet at Dallas.

We, the students of Handley, are proud of the growth in the interest in spring sports, and we hope that this interest will continue to be shown by our student body and faculty.

★★★★ OUR TRACK TEAM ★★★★★

Although Mrs. Wilson came to us late this year, she has accomplished a great deal in making our athletic program more complete. We were ably represented at Dallas in the regional tennis match. The girls had to face Highland Park, the contenders to the state title, in the first round. They fought hard but were defeated by a very small margin. There was mass participation in all the girls' sports and the girls also backed the boys on the football field, on the basketball court, and on the track field. We are looking forward to next year for the same good times with growing enthusiasm.

Dear Elmer:

I am certainly enjoying my tour of the United States, although I am obtaining material for my new story to be published in the **New York Times**. I am also running into many of our old classmates. It is very interesting to greet them and learn of their success.

For instance, I needed a plane to travel in and who should sell it to me but **Chester Morris**, owner of Fly-High Used Airplanes Inc. He has a network of chain plane lots reaching from coast to coast. Hired as my two chief mechanics are **Roy Lee Flanagan** and **Archie White**. My next job was to get a pilot, and who should come to my mind but **Dorothy Johnson**. As a companion and pilot she is considered tops.

As we passed through St. Louis we accidentally saw a sign which stated, "**Albert Browder M. D.**" Dorothy and I heaved a sigh of pride and relief at knowing that Albert is now living his greatest dream as a doctor in his flourishing practice. Albert's chief nurse is none other than **Billie Jean Herridge**. Also in the same office we find the smiling receptionist, **Evelyna Reeves**. At present Albert tells us that he hopes to get the famous dietician, **Nancy Dunkin**, for the hospital here in St. Louis.

I heard over the radio today that **Wanda Moore** has been selected as the glamour girl of 1957. The broadcast was made by the radio announcer, **Bob Morris**. Also on the same broadcast I learned that **Betty Lou Williams**, music professor at S.M.U., is among the teachers now on strike for more pay. In conclusion **Bob Morris** gave a brief sketch on the personal life of **Jake Cook** and **Bill McNiel**, the great scientists who have become the masters of the atomic bomb.

Reading in the paper today, I saw that **Bob Standlee** is now assistant manager to Leo Durocher. I also learned that **Alvis Lane** is now the Nine-Star General of Kitchen Patrol in the Marine Corps. He is to speak here next week on "The Fine Art of Cookery." Still glancing through **Dorothy Anthony's** gossip column, I saw that **Bill Barr**, manager of the Gulf Oil Company in South America, and **Bill McLeod**, an engineer in Venezuela, are to return to the States next month. The paper stated that their pilot would be **Edwin Cain** while the air-line stewardess would be none other than **Alva Lee Fletcher**. **Travis Cantrell** is to be the special mechanic. Also I saw that **Jack Holman**, Democratic Representative from Texas, is to speak before the House next Monday. The column also stated that **Bennie Ellis's** band is considered the top band of the year.

The business settled and the sights of great, old St. Louis seen, Dorothy and I start for home. After landing at Beatty Field, we immediately head for the school on the hill. Now the school is equipped with elevators and a real escalator for the long, remembered trudge up the hill. Just last summer the school had a complete redecorating job done. This marvelous feat was performed by the great interior decorator, **Mary Buckmaster**. We found **Jack Storey** was the principal while **Frances Ann McCleskey** was found to be teaching physical education. **Bill Trammel** is now in his second term of District Attorney for Fort Worth while **Otto Stepp** is preaching for the First Baptist Church of Handley.

Only the other day I learned that **Jimmie Clanton** is a Conover model. **Edna Mae Campbell** is one of Hollywood's most famous make-up artists. **Wallace Busbee** is found as the owner of the South's greatest indoor radio. Oh yes, **Bobbie Jean Campbell** is happily married and living on Meadowbrook Lane.

Tomorrow is election day and everyone is talking about the new candidate for governor, **John Neeley**. Further down the list I find that **Bill Rollins** is running for president of the Telephone Employees Union.

Dorothy tells me that the time is nearly 4:30 and I have an appointment in Washington at 5:30 so we must get out our new atomic rocket plane and be off for Washington.

I remain,

Mary Lynn Brooks.

OUR NEW MODEL

Fiction or Fact?

A New York detective agency that specializes in tracing missing persons has been employed by more than 70,000 wives to find their husbands, but by only 15 husbands to find their wives.

A Notice In A Rural Weekly

Anyone found near my chicken house at night will be found there the next morning.

An ad possibly contributed by Bill McNeil:

For Sale: 1938 car in first crash condition.

To one-armed drivers: You can't pay attention to your brakes when your mind is on your clutch.

And here's one on Lee Keen and Mr. Glen Steers.

Lee: Steers, what kind of sandwich is this?

Steers: What does it taste like?

Lee: Glue!

Steers: Then it's ham; the cheese tastes like putty.

Short Shots

"Some men would look more spic if they had less span."

"Children aren't happy with nothing to ignore,

And that's what parents were created for."

"Keep your eyes open before marriage; half shut afterwards."

"Do you suggest he is a thief?" asked the council.

"I couldn't say he's a thief, suh," said the witness, "But if I was a chicken, I'd sure roost high!"

Stoopnagle's Brainstorm

Drop an egg from a height of four feet. It will drop three feet without breaking. After that, what a mess!

A baseball will stop and come back to you if thrown straight up in the air.

All-metal shoes are used in horse racing — the horse's shoes.
